All teachers will be in their classrooms

In efforts to provide a great experience, please:

- Families are welcome to come to whichever night best meets their schedule, but in efforts to spread out the crowd we are recommending that families come on the evening that matches their students' last name.
- Plan to meet with an individual teacher for 5 minutes so that we can accommodate all families. If you need additional time with a teacher it can be scheduled at that time for a later date.
- Please wait outside the classroom if there is another family in the classroom to maintain privacy.
- Bring your student's schedule with you to conferences.
- We encourage you to bring your child to the conferences with you so that you can both hear the important messages that teachers would like to share.
- If you need a taxi or interpreter, please fill out info below and contact your student's STAR teacher.
