### COVID Information Corner

For the dates of January 7, 2022 through January 13, 2022 there have been 17 infectious cases of Covid 19 at Parkview.

#### What can you do to keep COVID out of our schools?

Stay home when you have symptoms of COVID. Students can use the BinaxNow Antigen test to confirm whether their symptoms are caused by COVID. Other options include testing at a community clinic when symptomatic.

**People with COVID may have one or more of these symptoms:**

- Cough
- Fever of 100.4 or higher
- Difficulty breathing
- Sore throat
- Nausea and vomiting
- Diarrhea
- Muscle aches and pain
- Extreme fatigue
- New or severe headache
- Nasal congestion or runny nose
- New loss of taste or smell (this symptom is most unique to COVID)

**Take a COVID test when you have symptoms.**

If that test is **NEGATIVE**: return to school, when symptoms are improved.

If that test is **POSITIVE**: call Parkview at 651-487-4360.

**Regular weekly COVID screen testing** is also advised for everyone in our school community. Some people with COVID have **NO** symptoms! Regular screen testing helps to identify those individuals. Screen testing can be done at community clinics or through your healthcare provider.

You can search for a testing site [HERE](#).

Thank you for helping to keep COVID out of our schools!
