THOUGHTS TO HELP YOU CHOOSE CLASSES ...

- Take the most challenging courses you can take and still be successful.
- Pre-AP, AP and CIS classes are college level rigor and will have more homework.
- Talk to a teacher, counselor and parent/guardian about classes. Remember to keep things in perspective and balance your course load.
- You'll spend at least one full trimester in elective classes - choose classes you'll enjoy and ones that capitalize on your skills and talents!
- If you are short credits, see your counselor.
- Besides the required classes, choose electives that will move you toward your college and/or career goals.
- Consider your extracurricular commitments, balance will help your year be more successful.
- * The University of Minnesota and several other colleges are now requiring 4 years of math.

LEGEND FOR SYMBOLS

- R - Required for graduation
- A - Fulfills fine arts credit
- M - May be taken multiple times for credit
