THOUGHTS TO HELP YOU CHOOSE CLASSES ...

- Take the most challenging courses you can take and still be successful.
- Pre-AP, AP and CIS classes are college level rigor and will have more homework.
- Talk to a teacher, counselor and parent/guardian about classes. Remember to keep things in perspective and balance your course load.
- You'll spend at least one full trimester in elective classes - choose classes you'll enjoy and ones that capitalize on your skills and talents!
- Besides the required classes, choose electives that will move you toward your college and/or career goals.
- Consider your extracurricular commitments. Balance will help you be more successful.

* The University of Minnesota and several colleges are now requiring four years of math.
