

Roseville Area Schools Finance Committee Purpose and Membership

The objective of the Finance Committee is to review potential costs for identified priorities and projects defined by the Options Committee as part of the Long-Range Planning process and consider economic feasibility. They will be reviewing cost estimates developed by the Architectural Team, implementation and packaging strategies developed by the District Administration in consultation with architects, tax impacts prepared by the District's financial consultants and other relevant information as determined or requested by the Committee. The Committee is comprised of community members, business owners, and residential property owners. Most have been a part of the District for a number of years and have an understanding of history, perceptions and community values.
