Welcome!

Your child is invited to Summer Discovery, Roseville Area School’s summer Targeted Services program. Your child has been identified by their classroom teacher as a student who would benefit.

Summer Discovery is one of the best ways to keep your child learning over the summer so they are ready for a successful school year in the fall. Summer Discovery is a themed based, hands-on program where students will work in groups, receive individual instruction and dive into STEM projects while practicing reading and writing. Summer Discovery will also include a physical education component and time to develop each child’s social and emotional skills.

Summer Discovery is only available to students who have been invited by their teacher. Please see the following pages for information on how to register.

If you have any questions about Summer Discovery, please talk to your classroom teacher or contact the Targeted Services office.
